As of last night, following a meeting with people at OPPT in DC, the following list is the one that I think we should go with

**Ex. 6 Personal Privacy (PP)**

I will attempt to summarize why in a separate email and hopefully go with this. However, there are many opinions and also a lot of silence (☺) and if there are challenges on it then I think we need to retain this list, with it's definition, as well as create other separate lists if possible. Since we can iterate at any time, I can version the list and continue to update but the deadline if Dec 16<sup>th</sup> has passed and I want to deliver on my commitment of a reference list for others to use at this point. Thanks
